

# SOVEREIGN CLENAWARE SYSTEMS

India's first and only  
complete British built  
professional glass-washer.

Why

# SOVEREIGN GLASSWASHER

7

Unique features

# Why

# SOVEREIGN GLASSWASHER

1

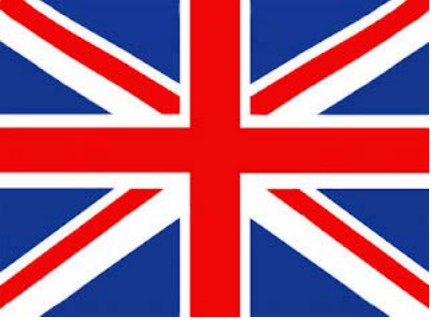

## All British Components →

Clenaware established its manufacturing in 1950s, Farnham to Wellingborough, Northamptonshire where the Clenaware products are still designed and manufactured.

Clenaware prides that its Glass Washers, Dishwashers and accessories are designed and hand-built in the UK based factory even in 2023.

# Why

# SOVEREIGN GLASSWASHER

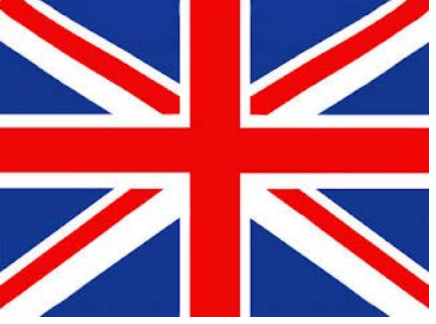

2

## Double skin exterior →

The machine design incorporates a double skin with thermal reduction liner.

This assures the operator's safety even when the temperature inside with its heaters may be as high as 82\*c (where specified).

# Why

# SOVEREIGN GLASSWASHER

## Polycarbonate cycle →

Polycarbonate glass ware require extra rinses and hotter temperatures for perfection in washing, as the detergent does not come off as easily as glass. This process doubles the life of plastic glassware.

Sovereign glass washers feature standard Plastics cycle that changes the process and can be switched to glass any time. Perfect for outdoor bars and pubs.

# Why

Special focus

# SOVEREIGN

## GLASS WASHER

4

### Renovate feature →

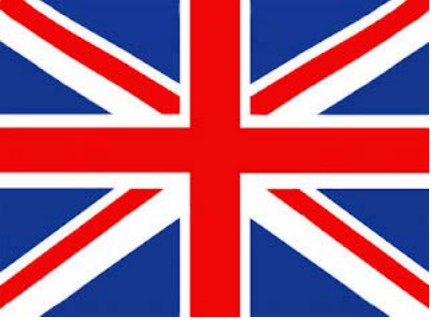

The Renovate feature is an exclusive automatic cycle in the Sovereign glass washer.

Renovate cycle using, renovate chemical will remove the ageing film on glass that are hardened.

The glasses become transparent as new and increase their lifespan.

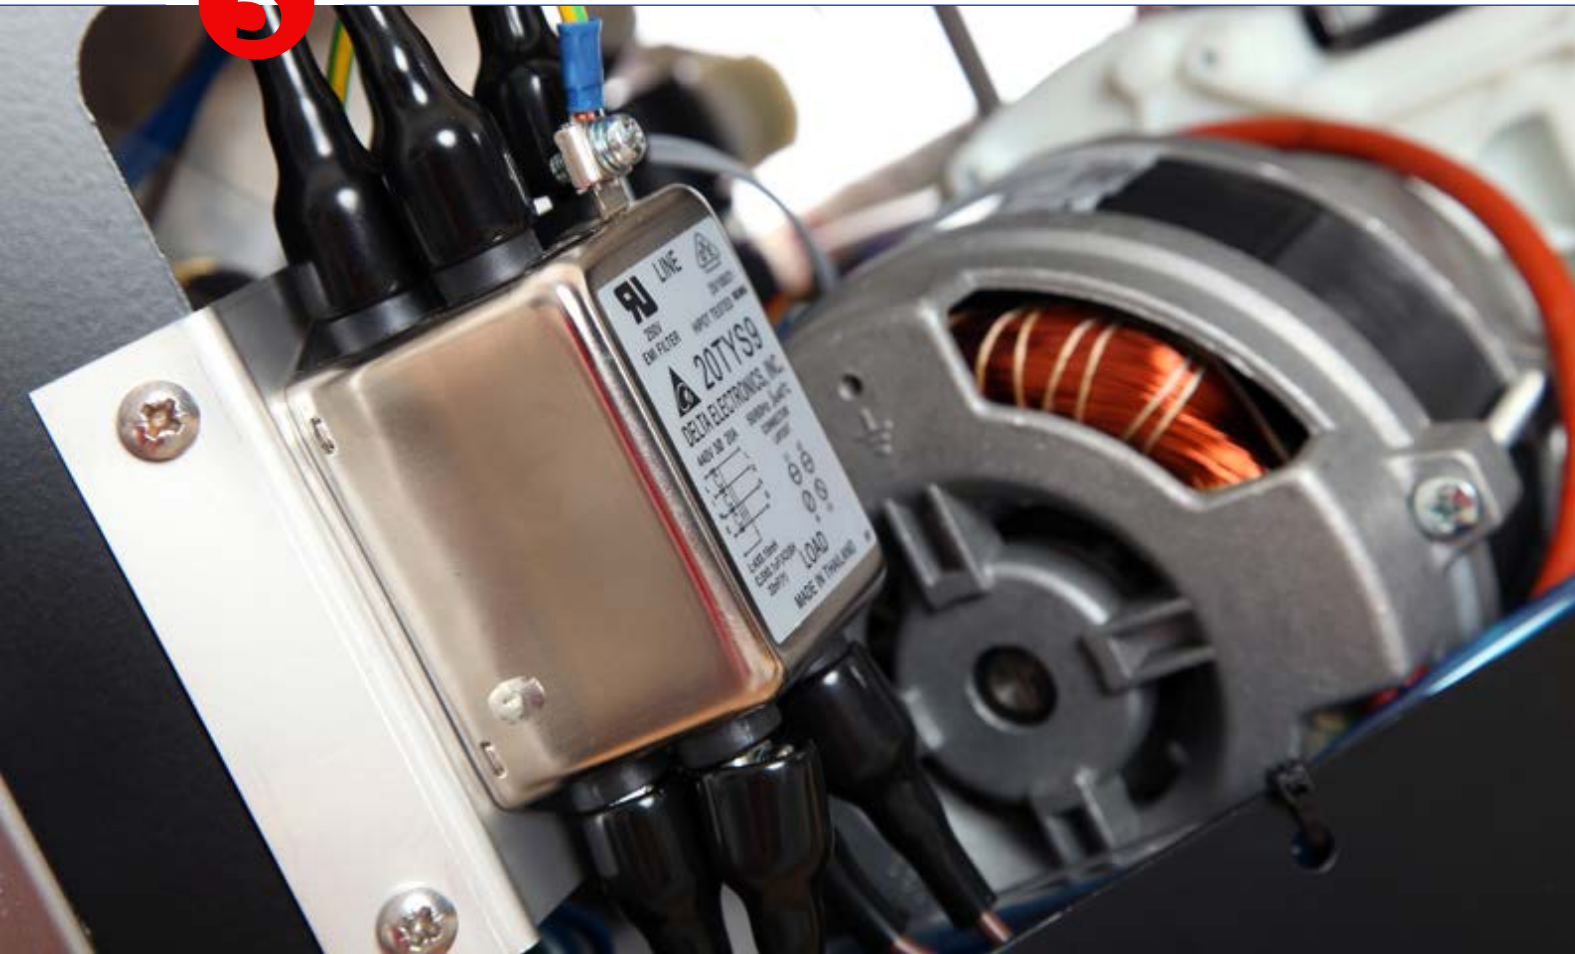

# Why

# SOVEREIGN GLASSWASHER

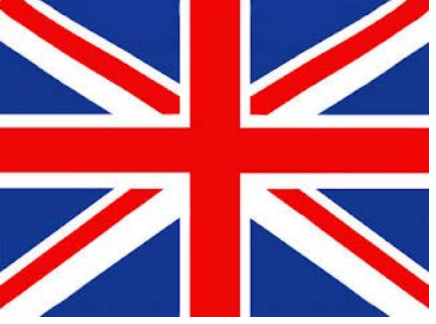

5

## Self Diagnostics →

Each Clenaware Sovereign machine includes self diagnostics that will detail the problem and advise when it is around the corner.

The resultant is almost zero downtime and ease of problem identification. The machine is its own technician.

# Why

# SOVEREIGN GLASSWASHER

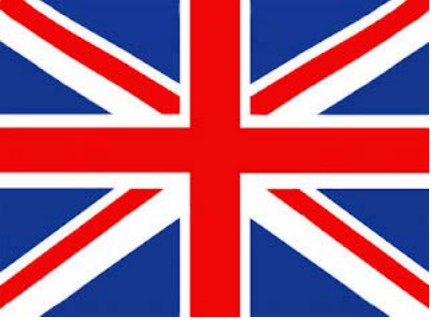

6

## Fresh water machine →

Unlike other machines that reuse the wash water, the Sovereign Glasswasher is a "Fresh Water Wash" machine which always ensures the last wash is the same as the first. The "Fresh Water Wash" system replaces the wash water after every wash, and what's more, the rinse water is always fresh to ensure that you obtain the same consistent "Perfect" result every time.

# Why

# SOVEREIGN GLASSWASHER

7

## Closedown Cycle →

Is used at the end of a washing session to empty all tanks and flush the system clean.

This assures the next wash is done in hygienic and clean tank.

**Why**  
Special focus

# SOVEREIGN GLASSWASHER

## Superior Installation →

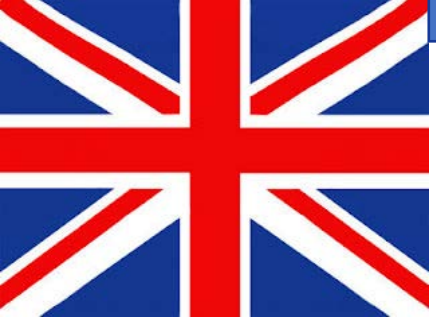

*A complete bar installation  
by **Vino Barzoni** including  
Clenaware.*

The Clenaware Sovereign design is made to blend in the bar, with its flat finished fascia, and perfect height that aligns with most 30-to-32-inch underbar equipment.

The front depth matches with 24-inch-deep equipment.

The top of the machine is well finished that you can avoid adding a finished table-top.

# Why

Special focus

# SOVEREIGN

## GLASSWASHER

### Air-Rack Supplement →

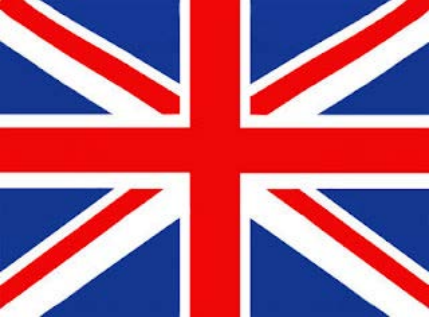

Use Sovereign machine along with its ancillary, The Airack that is today successfully used in Britain and in many countries, to dry glassware in matter of seconds in large batches.

The Airack is a must for Pubs that have short supply of glasses in bar and need a higher turnover.

It also removes the need to towel wipe!
